MEMORANDUM FOR: See Distribution

SUBJECT: Program Progress Report Inputs

1. An effort is being made to standardize the quarterly Program Progress Report format. To facilitate its preparation, it is requested that future inputs be double spaced in essentially the format used in the distributed version of the 1 January - 31 March 1970 report. For those offices not on distribution for the previous quarterly reports, a sample format is forwarded as Attachment 1. The sample format is illustrative only and must not be construed to imply that topics should be limited to those shown or that those topics should necessarily be included. Highly specialized technical terms should generally be avoided since the report will be reviewed by persons not familiar with all aspects of our work. When such terms must be used to retain the desired context, suitable explanations should be included.

2. Personnel are reminded that in order to meet existing suspenses, inputs must be received by SAS/O/OSA by close of business of the fifth working day of the month following each quarterly reporting period. Thus, inputs are next due no later than close of business on 8 July 1970.
